This house and land is perfectly positioned to capitalize on the growth of Málaga's metropolitan area, especially due to its proximity to the Parque Tecnológico de Andalucía (PTA) where more growth is coming to include IMEC, a leading global semiconductor research institution which is establishing its second global headquarters in Málaga TechPark; Kadans Science Partners Investments which is investing €30 million in Málaga TechPark to develop NODE I, a 12,000-square-meter facility offering laboratories and offices scheduled to open by October 2025; not to mention Sermatec a Lithium Battery Factory and the Malaga-Marbella Train Extension. All will create additional jobs and thus housing in the area will be needed especially since Málaga is projected to require 12,000 new homes annually over the next five years to accommodate population growth and urbanization trends. This demand necessitates doubling current housing production, indicating significant opportunities for real estate development and land acquisition. Whether you choose to restore, rebuild, or redevelop, this property is a true gem with unlimited potential in one of Málaga's fastest-growing regions. Don't miss out on this unique investment opportunity to own a piece of history and shape the future of Campanillas.
